MEMORANDUM FOR : Acting Assistant Director, Special
Activities

SUBJECT : Reiteration of priority of OSA's
Position in the Agency

1. A few years back the forefathers of this division enjoyed a priority within the Agency which permitted, and probably in more instances caused, Agency support elements to render timely and effective support to the AQUATONE project. This support not only permitted a more effective job to be accomplished by the AQUATONE personnel, but also freed their hands from the unnecessary niceties and bureaucracy of administration. In the past three years, however, I have witnessed the degradation of this priority to the extent where in many instances we are coming up with second best in Agency support.

25X1A2g 2. About a year ago Special Projects began to feel the pinch of second-rate support when all the hands in the Agency were pulling to support the Cuban show. Since we had a piece of this in [REDACTED] it was not readily noticeable or rather condoned in an understanding light. The Cuban show is long over, however, and we still must await our belated turn for clericals and secretaries. [REDACTED] who at one time could obtain instant service from Central Processing now finds his cries of urgency falling upon stone ears.

25X1A9a

3. I would suggest that we take some steps, possibly through General Carter and/or Red White, to notify the supporting elements of the Agency that we are still Number One on the work parade and should receive prompt and thorough support. Over to you.

25X1A9a

[REDACTED]
Executive Officer, OSA

cc: C/Admin/OSA
